

HOY KAR POH

Junior Game Artist and Graphic Designer
(2D / 3D / Hand-painted Direction)

6011-2135 9759 hoykarpoh740@gmail.com https://www.linkedin.com/in/hoy-kar-poh-1529953a3/

Internship Availability: July 2026 – October 2026 (Available for full-time internship)

ABOUT ME

I am a junior game artist specializing in stylized 3D environment creation, with additional strengths in 2D art, pixel design, and hand-drawn concepts.I am experienced in creating optimized game-ready assets using 3ds Max and Substance 3D Painter, and integrating them into game engines such as Unity and Godot.With the ability to bridge 2D concepts into 3D implementation, I bring a flexible and production-oriented mindset to game art development. I am particularly passionate about stylized and fantasy-driven game visuals.

EDUCATION

2024 - 2026
Asia Pacific University

Diploma in Information and Communications Technology (Interactive Technology
CGPA : 3.03

2023 - 2024
Asia Pacific University

Certificate in Information and Communications Technology
CGPA : 3.26

PROJECTS & PORTFOLIO

Stylized 3D Environment Project

- Created a complete stylized 3D environment using 3ds Max and Substance 3D Painter
- Designed assets with optimized topology and efficient texture usage for real-time rendering
- Focused on medieval and fantasy art styles with consistent visual direction
- Presented assets using Marmoset Toolbag for portfolio-quality rendering

Game Project: Word Do You Mean (Team Project)

- Participated in game art design and asset production.
- Assisted in integrating 2D and 3D assets into the game engine.
- Contributed to the testing and iterative optimization processes.

2D hand-drawn / pixel art projects

- Created 2D sketches and pixel art designs for characters and environments.
- Completed basic pixel animations (Idle / Walk / Attack).
- Explored visual conversion workflows from 2D concepts to 3D implementation.

TECHNICAL SKILLS

2D Art & Hand-Drawing (Core Strengths)

- Hand drawing (characters, environments, concept sketches)
- Pixel art and animation
- Graphic design (layout, color, visual communication)
- Photoshop and Illustrator
- Basic UI and game interface design

3D Art & Game Production Pipeline

- **Software**: 3ds Max, Substance 3D Painter, Marmoset Toolbag.
- **Modeling**: Low-poly modeling and stylized asset creation.
- **Workflow**: Voxel / Stylized Workflow.
- **Rendering**: Lighting, materials, and texturing.
- **Engine Integration**: Unity / Godot engine asset integration.

Game Development & Programming

- Game Engines: Unity (2D prototyping & art integration), Godot implementation).
- Programming Languages: Java, Python, C#, HTML, CSS, JavaScript.

Audio & Video Processing

- Reaper, Audacity, Adobe Premiere.

LANGUAGES

- Chinese: Native
- English: Good
- Malay: Basic
- Japanese: Basic

PERSONAL STRENGTHS

- Strong ability to translate concepts into production-ready assets
- Understanding of real-time game art pipelines
- Adaptable across 2D, 3D, and UI workflows
- Highly motivated to improve visual quality and artistic direction
